

Editorial

We began our Maya CARE journey in 2009 as first-time entrepreneurs, with just the desire to help the first generation of Indians grappling with the reality of being alone, having lost their sense of purpose and often being confined to their homes or care homes due to failing health.

Today, Maya CARE has completed over 15,000 visits to senior citizens. We offer free services across 59 Indian cities and 5 UK cities and with the increasing demand, our dream is to be available in every Indian city and then across the world.

We have been fortunate to have a network of responsible, compassionate representatives who bring us the warmth and blessings from our senior citizens. The administrative backbone comprises persons who have overcome physical disability (PWDs) through Project Bindu to upgrade their professional skills and serve with confidence. Apart from this, we have ensured mandatory legal compliances, accountancy fees, website domains, robust IT infrastructure and all phone helplines are in place. Up to 2020, for the first 11 years of its existence, 92% of Maya CARE's expenses were covered by our personal income as salaried professionals.

In the last two years, concerted effort in reaching out to corporate and individual donors and the immense goodwill generated by the relentless work of our volunteers and Project Bindu participants, has led Maya CARE towards its journey towards financial stability.

It is our fervent desire that Maya CARE continues to serve beyond our work lives and in the year to come, we hope to see Maya CARE closer to our aim of making it independent of its founders.

We are thankful to the selfless work of our volunteers and the overwhelming goodwill from supporters, which is what has kept the cause of Maya CARE going this far!

Warm regards

Abhay and Manjiri Joshi
